

Specialists in Pre-Owned Mobile Clinics

vol.01.2014.2

Darien DeLorenzo

The Authority is proud to be led by Darien DeLorenzo, founder and former director of the national Mobile Health-Clinics Association. Darien has over 40 years of healthcare marketing experience including 15 years as an administrator in the specialized field of mobile healthcare.

Darien brings a unique blend of knowledge about mobile clinic operations and health specialty vehicles.

"With The Authority, I am pleased to introduce a team of highly regarded professionals with expertise in mobile healthcare and specialty vehicles to assist you in acquiring a mobile clinic for community health services."

The Authority ... an innovative resource for organizations and practitioners operating a mobile clinic.

Buying? Our team will help you identify a pre-owned mobile clinic or chassis that can be converted to meet your required specifications and budget. Click on the speciality of your interest to see what is currently available for sale – [dental](#) or [medical](#).

If what is listed on our website is not quite right for you, call us to discuss your specific needs, and we will research to find you the best and most affordable options. This past year, we've put over a dozen pre-owned health specialty vehicles back on the road -- from dental and eye care to preventive/primary care and clinical laboratory -- we can help you! Call [4151-863-4888](tel:4151-863-4888) or [Email](#).

Selling? The Authority can list your mobile clinic for sale on our website.

Leasing? Call us to explore your short-term or long-term options.

Why Buy Pre-Owned?

Dental, medical, specialty care, or mammography ... buying pre-owned, often at one-third to one-half (or more!) off the cost of purchasing a brand new mobile clinic, will:

- Save more of your organization's budget for operational expenses
- Allow you to expand your community outreach
- Get you on the road immediately

Contact The Authority to discuss your options for going mobile ...

Call [4151-863-4888](tel:4151-863-4888) or [Email](#)

Other Services Available from Our Team ...

- Communications connectivity
- Driver education & training
- Vehicle inspection
- Vehicle insurance
- Local vehicle & equipment compliance
- Vehicle transport/delivery

We can guide you to the right resources that can serve your needs ...

Broadband Network

A New Rural "Hotspots" Initiative for Mobile Healthcare Providers

The Authority and an alliance of partners will introduce this initiative in early 2015. The goal is to make available to mobile clinics a robust and reliable WiFi infrastructure in predominantly underserved rural areas. Key participants with expertise in rural healthcare and telemedicine will form the foundation of an integrated network to create pilot programs that can be modeled across the US.
